A detail-oriented web developer who strives to build intuitive programs by combining functionality with a sleek design. I excel in high-pressure situations and never back down from a challenge.

PROJECTS

Hangman

- Created classic hangman game, with option to play with 1 or 2 people.
- Built using JavaScript, HTML, CSS, and JQuery.

Online Web Store

- Allows the user to signup and login.
- Add and remove items to their cart.
- Checkout and clear their cart.
- Built using Ruby on Rails, CSS and Active Record

iDidIt

- User can log in to their profile.
- Create and delete tasks.
- Receive scheduled text messages.
- Built using Express and Mongoose for the backend, and React and Node for the frontend. Used the Twilio API to send text messages

Coffee Shop

- Pick a location anywhere in the US, and it will find 9 coffee shops within a mile of that location.
- Built using Google Maps API, and the Google Places library.
